INDEPENDENT AUDITORS' REPORT

To the Township Board
South Branch Township
Wexford County
Cadillac, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of South Branch Township, Wexford County, Cadillac, Michigan, as of and for the year ended June 30, 2007, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of South Branch Township, Wexford County, Cadillac, Michigan, as of June 30, 2007, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages iii through ix and budgetary comparison information on pages 20-21 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise South Branch Township, Wexford County, Cadillac, Michigan's basic financial statements. The combining and individual fund financial statements, and other supplementary information

are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2007

South Branch Township, a general law township located in Wexford County has implemented the provisions of Governmental Accounting Standards Board Statement 34 (GASB 34). The Management's Discussion and Analysis, a requirement of GASB 34, is intended to be the South Branch Township board's discussion and analysis of the financial results for the fiscal year ended June 30, 2007, along with specific comparative information as required.

Financial Highlights

- ◆ The assets of the Township exceeded its liabilities at the close of the fiscal year by \$377,379. Of this amount, \$38,913 may be used to meet the township's ongoing obligations to citizens and creditors.
- ◆ As of the close of the current fiscal year, the Township's governmental funds reported combined ending fund balances of \$80,437 an increase of \$8,547 in comparison with the prior year. About \$39,244 is available for spending at the Township's discretion.
- ◆ The Township's total debt decreased by \$14,282 during the fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Township's basic financial statements. The Township's basic financial statements are comprised of three components. 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements This report includes government-wide statements as required by GASB Statement Number 34. The *government-wide financial statements* are designed to provide readers with a broad overview of the Township's finances, in a manner similar to a private-sector business. These statements are calculated using full accrual accounting and more closely represent those presented by business and industry. The Township's entire assets and liabilities, both short and long-term, are reported. As such, these statements include capital assets, net of related depreciation.

The *Statement of Net Assets* presents information on all of the Township's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The *Statement of Activities* presents information showing how the Township's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Township's that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

SOUTH BRANCH TOWNSHIP, WEXFORD COUNTY
CADILLAC, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2007

Fund Financial Statements

The fund level statements are reported on a modified accrual basis in that only those assets that are “measurable” and “currently available” are reported. Liabilities are recognized to the extent they are normally expected to be paid with current financial resources.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government’s near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statement, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Proprietary Funds – Proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Township does not maintain any proprietary funds.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements, this report further presents Required Supplementary Information (RSI) that explains and supports the information presented in the financial statements.

Government-Wide Financial Analysis

The Statement of Net Assets is the first statement in the Government-Wide Financial Statements section of this document. This statement is useful for providing an indicator of the Township’s financial position over time. The Net Assets of the Township are \$377,379 at June 30, 2007, meaning the Township’s assets were greater than its liabilities by this amount. As noted earlier, net assets may serve over time as a useful indicator of a government’s financial position. A comparison with the previous fiscal year is presented in order to show the change in Net Assets over the previous fiscal year.

The most significant portions of the Township's Net Assets are cash and investment in capital assets (e.g. land, buildings, equipment, and others) less any related debt that is outstanding that the Township used to acquire the asset. The Township has \$38,913 in unrestricted Net Assets. These assets represent resources that are available for appropriation, but are limited by Township policies regarding their use.

At the end of the current fiscal year, the Township is able to report positive balances in all categories of net assets, both for the government as a whole, as well as for its separate governmental activities.

The total net assets of the Township decreased by \$11,452 in this fiscal year, which is an indicator that the Township experienced negative financial growth during the year.

The following table illustrates and summarizes the results of the changes in the net assets for the Township. The condensed information was derived from the government-wide Statement of Activities.

Governmental Activities

During the fiscal year ended June 30, 2007, the Township's net assets decreased by \$11,452 in the governmental funds. The majority of this decrease represents the degree to which increases in ongoing revenues have not outstripped similar increases in ongoing expenses. GASB 34 now requires the Township to maintain a record of annual depreciation expense and the accumulation of depreciation expense over time. The net increase in accumulated depreciation expense is a reduction in net assets.

SOUTH BRANCH TOWNSHIP, WEXFORD COUNTY
CADILLAC, MICHIGAN

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR FISCAL YEAR ENDED JUNE 30, 2007

A significant part of the revenue for all governmental activities of South Branch Township comes from property taxes. The Township levied a millage for fire protection in addition to the operating millages this fiscal year. The Township levied 0.8344 mills for operating purposes, 1.8816 mills for fire protection, and 0.9438 mills for fire equipment.

State shared revenue is collected by the State of Michigan and distributed to local governments by formula allocation.

The Township's governmental activities expenses are dominated by public safety expenses. The Township spent \$66,773 in the fiscal year 2007 on public safety expenses. General government represented the next largest expense at \$41,043 followed by legislative at \$6,998.

Business-Type Activities

The Township does not maintain any Business-Type Activities.

Financial Analysis of the Government's Funds

Governmental Activities The focus of South Branch Township's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Township's financing requirement. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, South Branch Township's governmental funds reported combined ending fund balances of \$80,437. Approximately \$39,244 of this total amount constitutes unreserved fund balance. The remainder of the fund balance is reserved or designated for specific purposes and is therefore not available for new appropriation. For example, the fund balance that is reserved for fire protection must be used for expenditures that relate to fire protection.

General Fund – The General Fund decreased its fund balance by \$2,328 which brings the fund balance to \$47,673. Of the General Fund's fund balance, \$39,244 is unreserved while \$8,429 is reserved for right-of-way maintenance, and \$13,293 is designated for the community building. Property tax revenues increased by \$1,012.

Fire Fund – The Fire Fund increased its fund balance by \$10,875 which brings the fund balance to \$32,764. This balance is reserved and must be used for fire protection and fire equipment.

The Township levied a fire millage on the 2006 tax roll. This resulted in \$51,782 in tax related revenues during the current fiscal year.

Liquor Law Enforcement Fund – The Liquor Law Enforcement Fund's fund balance remained the same at zero. The Liquor license fees received from the State do not cover the entire expenditures from the Wexford County Sheriff's Department, therefore, only the expenditures paid for by the revenue of this fund are recorded here. The balance is recorded in the General Fund.

Capital Assets and Debt Administration

Capital Assets. The Township's investment in capital assets for governmental activities as of June 30, 2007 amounted to \$306,404 net of accumulated depreciation. The total decrease in the Township's investment in capital assets net of accumulated depreciation for the current fiscal year was \$34,436.

Capital assets summarized below include any items purchased with a cost greater than \$300 individually (for purchases after June 30, 2003) and that have a useful life greater than one year. A summary of capital asset categories is illustrated below:

Net Capital Assets	<u><u>\$ 306,404</u></u>	<u><u>\$ 340,840</u></u>

Major capital asset events during the current fiscal year included the following:

- ◆ Purchased radios and various other fire equipment.

Long-Term Debt At the end of the current fiscal year, the Township had total installment debt outstanding of \$9,131. The entire balance of this debt is backed by the full faith and credit of the government. The lender also has a security interest in the tanker purchased with the note proceeds. Additional information on the Township's long-term debt can be found in the notes to the financial statements.

Economic Condition and Outlook

The unemployment rate is still high in the State of Michigan and the State's shortfall in the budget means potential reductions in state-shared revenues.

These factors were considered in preparing the Township's budgets for the 2007-08 fiscal year.

IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES
JUNE 30, 2007

Net change in Fund Balance - Total Governmental Funds	\$ 8,547
---	----------

Amounts reported for governmental activities are different because:

Governmental funds report capital outlays as expenditures in the statement of activities. These costs are allocated over their estimated useful lives as depreciation.

Depreciation Expense	(37,427)
Capital Outlay	5,371

Accrued interest on notes payable is recorded in the statement of activities when incurred; it is not recorded in governmental funds until it is paid.

Accrued Interest Payable - Beginning of Year	486
Accrued Interest Payable - End of Year	(331)

In the statement of activities, only the gain or loss on the sale of fixed assets is reported, whereas in the governmental funds, the entire proceeds from the sale increases financial resources. The change in net assets differs from the change in fund balance by the cost of capital assets sold net of accumulated depreciation.

Unrecovered cost of assets sold	(2,380)
---------------------------------	---------

Repayments of principal on long-term debt is an expenditure in the governmental fund, but not in the statement of activities (where it is a reduction of liabilities).

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

South Branch Township is a general law township located in Wexford County which operates under the direction of an elected township board. Under the criteria established by accounting principles generally accepted in the United States of America, the Township has determined that there are no component units which should be included in its reporting entity.

B. Government-wide and Fund Financial Statements

GASB Statement No. 34 establishes standards for external financial reporting for state and local governments and requires that resources be classified for accounting and reporting purposes into the following three net asset categories.

Invested in Capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, and contributors, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets which do not meet the definition of the two preceding categories.

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The government-wide focus is more on the sustainability of the Township as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The fund financial statements are similar to the financial statements presented in the previous financial reporting model.

C. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Sales taxes collected and held by the state at year end on behalf of the government are also recognized as revenue. All other revenue items are considered to be measurable and available only when cash is received by the government.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The accounts of the Township are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements.

South Branch Township reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Fire Fund* accounts for revenue sources that are legally restricted to expenditures for fire protection.

The *Liquor Law Enforcement Fund* accounts for revenue sources that are legally restricted to expenditures for liquor law enforcement.

SOUTH BRANCH TOWNSHIP, WEXFORD COUNTY
CADILLAC, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

Additionally South Branch Township reports the following fund types:

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. These funds are used to account for assets that the Township holds for others in an agency capacity.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions involved. Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the Township's policy to use the restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Equity

1. Deposits and Investments

The Township's cash and cash equivalents are considered to be cash on hand, demand deposits, certificates of deposits, and short-term investments with original maturities of three months or less from date of acquisition.

(I) The Township Board has authorized the Township Treasurer to invest in the following:

- (a) Bonds, securities, and other obligations of the United States or an agency or instrumentality of the United States.
- (b) Certificates of deposit, savings accounts, deposit accounts, or depository of a financial institution with a location within the State of Michigan.
- (c) Commercial paper rated at the time of purchase within the 2 highest classifications established by not less than 2 standard rating services and that matures not more than 270 days after the date of purchase.

SOUTH BRANCH TOWNSHIP, WEXFORD COUNTY
CADILLAC, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

- (d) Repurchase agreements consisting of instruments listed in subdivision (a).
- (e) Bankers' acceptances of United States banks.
- (f) Obligations of this state or any of its political subdivisions that at the time of purchase are rated as investment grade by not less than 1 standard rating service.
- (g) Mutual funds registered under the Investment Company Act of 1940, Title I of chapter 686, 54 Stat. 789, 15 U.S.C. 80a-1 to 80a-3 and 80a-4 to 80a-64, with authority to purchase only investment vehicles that are legal for direct investment by the Township Treasurer. This authorization is limited to securities whose intention is to maintain a net asset value of \$1.00 per share. (Recommendation--the above limitation is recommended, however, the Treasurer may also include mutual funds whose net asset value may fluctuate on a periodic basis by so stating in this area).
- (h) Investment pools organized under the Local Government Pool Act, 1985 PA 121, MCL 129.141 to 129.150.
- (i) Investment pools organized under the Surplus Funds Investment Pool Act, 1982 PA 367, MCL 129.111 to 129.118.

2 *Receivables and Payables*

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

All trade and property tax receivables are shown net of an allowance for uncollectibles. Property taxes attach as an enforceable lien on the property as of the date they are levied. State education taxes, two-thirds of county taxes, and 50% of Cadillac Area Public School's taxes are levied and due July 1, and become delinquent after September 14. The remaining millages are levied and due December 1, and become delinquent after February 15. Collections of taxes and remittances of them are accounted for in the Current Tax Collection Fund. Township property tax revenues are recognized when they become both measurable and available for use to finance Township operations. Amounts which are not expected to be collected within sixty days are treated as deferred revenues.

The 2006 taxable valuation of South Branch Township totaled \$18,246,383, on which ad valorem taxes levied consisted of 0.8344 mills for South Branch Township operating purposes, 0.9438 mills for fire equipment, and 1.8816 mills for South Branch Township fire protection. These levies raised approximately \$15,293 for operating purposes, \$17,299 for fire equipment, and \$34,484 for fire protection.

SOUTH BRANCH TOWNSHIP, WEXFORD COUNTY
CADILLAC, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

3. *Inventories and Prepaid Items*

Inventories are not significant and are expensed as acquired.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

4. *Capital Assets*

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$300 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment of the government are depreciated using the straight line method over the following estimated useful lives:

<u>ASSETS</u>	<u>YEARS</u>
Buildings	50
Building improvements	20
Public domain infrastructure	20
Vehicles	10
Equipment	5-10

5. *Long-term Obligations*

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts, as well as issuance costs, are amortized over the life of the bonds using the effective interest method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

SOUTH BRANCH TOWNSHIP, WEXFORD COUNTY
CADILLAC, MICHIGAN

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

6. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

7. Use of Estimates

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. A public hearing is held to obtain taxpayer comments. Appropriations lapse at year end. Budgeted amounts presented are as originally adopted on June 14, 2006, or as amended by the Township Board from time to time throughout the year.

The appropriated budget is prepared by fund and activity. The Township Board exercises budgetary control over expenditures.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the Township because it is not, at present, considered necessary to assure effective budgetary control or to facilitate effective cash planning and control.

B. Funds with Expenditures in Excess of Appropriations were as follows:

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

The Township's deposits are all on deposit with Lake Osceola State Bank in Baldwin, Michigan.

Investment rate risk. The Township will minimize Interest Rate Risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investing pools and limiting the average maturity in accordance with the Township's cash requirement.

Foreign currency risk. The Township is not authorized to invest in investments, which have this type of risk.

Credit risk. The Township will minimize Custodial Credit Risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities listed in the Township's investment policy; and pre-qualifying the financial institutions, brokers/dealer, intermediaries and advisors with which the Township will do business in accordance with the Township's investment policy.

Concentration of credit risk. The Township will minimize Concentration of Credit Risk, which is the risk of loss attributed to the magnitude of the Township's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of June 30, 2007, none of the government's bank balance of \$76,095 was exposed to custodial credit risk because none of it was uninsured and uncollateralized.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Township's investments are categorized to give an indication of the level of risk assumed by the Township at year end. Category 1 includes investments that are insured or registered, or securities held by the Township or the Township's agent in the Township's name. Category 2 includes investments that are uninsured and unregistered with securities held by the counterparty's trust department or its agent in the Township's name. Category 3 includes investments that are uninsured and unregistered, with the securities held by the counterparty, or by its trust department or its agent but not in the Township's name. At year end, the Township held no investments.

B. Receivables

Receivables as of year end for the government's individual major funds are as follows:

	General	Fire	Liquor Law Enforcement	Total
Receivables				
Due from Other Governments	\$ 7,136	\$ 0	\$ 0	\$ 7,136

The allowance for doubtful accounts is not considered to be material for disclosure. As a result, its uncollectible accounts are virtually nil.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

No deferred revenue was recorded in any of the funds at the end of the current fiscal year.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

As of June 30, 2007, there were no Interfund Transfers.

Transfers are used (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

E. Long-Term Debt

IV. OTHER INFORMATION

A. Risk Management

The Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The Township participates in a pool of municipalities within the State of Michigan for self-insuring property and casualty, crime, general liability, errors and omissions insurance and workers' compensation. The Township pays annual premiums to the pool for the respective insurance coverage. In the event the pool's total claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to special assessments to make up the deficiency. The Township has not been informed of any special assessments being required for the current year or the three prior years.

The Township continues to carry insurance for other risks of loss, including fidelity bonds.

B. Jointly Governed Organization

South Branch Township and Henderson Township have entered into an agreement to create a joint cemetery board. The cemetery's board consists of the full board of both townships. The Township's share of the financial operations of the cemetery are recorded in the General Fund of South Branch Township. Both townships share in costs of operations as South Branch Township reimburses

Henderson Township for the Township's share of the costs incurred. For 2007-2008, a new entity has been created which will be funded by contributions from both Townships.

C. Subsequent Event

The Township received notification it will receive a FEMA Grant in the amount of \$31,725 for the purchase of turnout gear for the fire department to be spent in 2007-2008.
